
java.util package complete details
1. Collections Framework classes
2. Internationalization (I18N) classes
3. Date and time classes
4. EventHandling classes
supporting interfaces
1) Comparable<T>
2) Comparator<T>
3) Iterable<E>
Objects
Optional
Iterable is NOT the Root/super Interface of Collection hierarcy bez it does not have collection method
Iterable<T>
HAS-A
Iterator<T>
Cursor object classes
1) Enumeration<E>
2) Iterator<E>
3) ListIterator<E>
4) for-each loop
5) forEach(-) method
6) Stream API
7) Spliterator<E>
Utility classes
1) Collections
2) Arrays
3) BitSet
4) Random
5) StringTokenizer
I18N classes
1) ResourceBundle
2) Locale
3) Currency
Date and Time classes
1) Date
2) Calendar
3) java.text package
1) SimpleDateFormat
4) java.time package
1) Year
2) YearMonth
3) MonthDay
4) Month
5) DayOfWeek
etc...
Collections framework clases
1) Collection and it sub classes
2) Map and its sub classes
3) Cursor object classes
4) Utility classes
Collection<E>
Set<E>
List<E>
Queue<E>
SortedSet<E>
Deque<E>
NavigableSet<E>
AbstractCollection<E>
AbstractSet<E>
AbstractList<E>
AbstractQueue<E>
AbstractSequentialList
TreeSet<E>
HashSet<E>
Vector<E>
ArrayList<E>
PriorityQueue<E>
Stack<E>
LinkedList<E>
ArrayDeque<E>
EnumSet<E>
LinkedHashSet<E>
Map<K, V>
Entry<K,V>
SortedMap<K,V>
NavigableMap<K,V>
AbstractMap<K,V>
Dictionary<K,V>
TreeMap<K,V>
HashMap<K,V>
Hashtable<K,V>
EnumMap<K,V>
LinkedHashMap<K,V>
Properties
WeakHashMap<K,V>
IdentityHashMap<K.V>
EventHandling classes
1) EventListener (i)
2) EventListenerProxy(ac)
3) EventObject (c)
